

## Production staff Manufacturing Silicon Wafers / Operator (m/f/d)

With our EpiNex® technology, NexWafe produces high-quality, monocrystalline silicon wafers for solar cells. The continuously operated epitaxy process developed by us for this purpose is unique and forms the core of our pilot line in Freiburg. With it, we are preparing the technology for rapid entry into mass production and for qualification of wafers with customers.

### YOUR FUNCTION

As a production employee/operator, you operate the process and characterization equipment in order to achieve our quality goals and planned production quantity. The operator is part of a team with flat hierarchies, direct communication, and short decision-making paths. You report to the Senior Operator.

### WHAT WE OFFER

- A role in helping commercialization of environmentally friendly solar energy
- The chance to use your skills optimally and develop yourself further
- An activity as part of a highly motivated team with flat hierarchies, rapid communication, and short path decision-making
- A permanent position, full-time

### YOUR MAIN TASKS

- Operation of equipment, such as: chemical etching equipment, equipment for chemical gas phase deposition, equipment for handling of silicon wafers
- Ensure material flow and associated data collection via various manufacturing and quality control steps
- Execution of quality controls
- Material flow of the components and equipment used
- Support of process engineers in the qualification of plants and processes
- Cooperation in the commissioning of newly developed systems
- Ensuring order and cleanliness, compliance with regulations, and following requirements for occupational safety, health and environmental protection

## YOU BRING WITH YOU

- Completed technical vocational training, for example as a chemical technician or laboratory technician
- Experience in a manufacturing plant in the operation of machines and plants
- Professional experience with process plants in the chemical environment is an advantage
- Ready for semi-continuous shift operation in a 5-day week
- Reliable and flexible use
- Very good analytical skills
- Very good German language skills required. In addition English language communication skills strongly preferred.
- Willingness to work in a dynamic and dedicated team of a "Start Up"
- Good team skills

The advertised position shall be filled indefinitely and full-time. We look forward to receiving your application. Please send the complete documents by email in PDF format to [personal@nexwafe.com](mailto:personal@nexwafe.com)
